Area Variance Continued

	Alea variance Continued
1.	Explain how no undesirable change will be produces in the character of the neighborhood; nor a detriment to nearby properties created by granting the area variance.
	This construction will only improve home value, and neighborhood value.
2.	Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.
	As homeowners we have the ability to achieve our proposal by going through the Zoning board. Q. the Lown of No. Green bush.
3.	Describe whether the requested Area Variance is substantial.
	Yes. We have the room to build this garage without effecting other properties.
4.	Explain how the proposed variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.
	This proposal will not have any adverse effect on the physical or environmental conditions in the neighborhood or district.
5.	Explain whether difficulty is self- created. (Consideration is relevant, but should not necessarily preclude the granting of the Area Variance.
	There is no difficulty and our grounds are level and veady togo. No changes to our grounds are needed.

$\langle \rangle$		

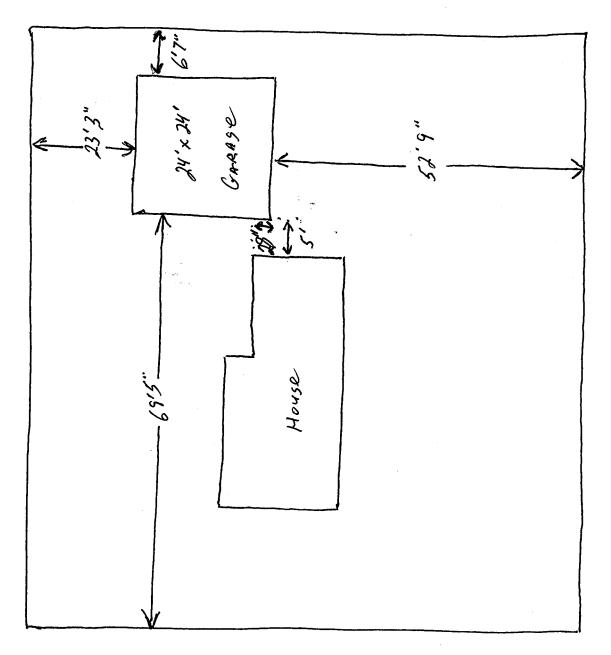

Part 2- Impact Assessment. The Leaf Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	*	
2. Will the proposed action result in a change in the use or intensity of use of land?	Y	
3. Will the proposed action impair the character or quality of the existing community?	X	
4. Will the Proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	X	
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	K	
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	X	:
7. Will the proposed action impact existing: a. public / private water supplies b. public / private wastewater treatment utilities?	X	
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	X	
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, water bodies, groundwater, air quality, flora and fauna)?	X	
10. Will the proposed action result in an increase in the potential for erosion, flooding, or drainage problems?	X	
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3- Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significance adverse environmental impact, please complete part 3. Part 3 should, in sufficient detail,
identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce
impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential
impacts. Fair 5 should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude.
Also consider the potential for short- term, long-term and cumulative impacts.

Check this box if you have determined, based on the information the proposed action may result in one or more potentially large or is required.	nation and analysis above, and any supporting documentation, that significant adverse impacts and an environmental impact statement
	nation and analysis above, and any supporting documentation, that conmental impacts.
